Commission

# IOTWMS Status Reporting

Presentation to  
Intersessional Meeting of the  
Intergovernmental Coordination  
Group for Indian Ocean Tsunami  
Warning & Mitigation System  
(ICG/IOTWMS)

23 – 24 November 2021

**Rick Bailey**  
Head of Secretariat for  
ICG/IOTWMS

# IOTWMS Status Reporting

**unesco**

**Intergovernmental  
Oceanographic  
Commission**

## **Recommendation:**

The detailed Capacity Assessments undertaken in 2005 and 2018 are extremely valuable in baselining the status of the IOTWMS and need repeating periodically.

To facilitate and simplify the reporting and monitoring of status of the IOTWMS to better inform the ICG on a more regular, sessional timeline basis:

<b>Agenda Item 12.0</b>	<b>Secretariat to develop an online tool to streamline the collection of fundamental information on Member State and IOTWMS status, taking into account findings from IOTWMS Capacity Assessment 2018 and the development of common KPIs by TOWS-WG, to guide monitoring and review at ICG and Steering Group meetings</b>	<b>Secretariat, WG1, WG2</b>	<b>May 2022 (ICG XIII)</b>
