

# Tsunami Ready Capacity Survey - Pacific

The Tsunami Ready Recognition Programme (TRRP) is an international community-based recognition programme developed by Intergovernmental Oceanographic Commission (IOC) of UNESCO. It aims to build resilient communities through awareness and preparedness strategies that will protect life, livelihoods and property from tsunamis in different regions. The TRRP will contribute towards the UN Ocean Decade goal of 100% of communities at risk of tsunami being prepared for and resilient to tsunami by 2030.

More information on TRRP:

\* Required

## Country Information

1. Name of Country \*

2. Name of Organization \*

3. Name of the Person Filling in the Questionnaires \*

4. Email of the Person Filling in the Questionnaires.  
(please make sure you write the email address correctly) \*

## In Country TRRP Implementation Plan

5. Does your country have an interest to implement the IOC-UNESCO Tsunami Ready Recognition Programme (TRRP)? \*

- Yes
- No (You will not proceed to other TRRP Questions)

6. Does your country already have the National Tsunami Ready Board \*

- Yes
- No

7. Have the community(ies) interested to implement TRRP been identified \*

- Yes
- No

8. Please list the potential community(ies) interested to implement TRRP  
(use come between the community name) \*

9. Has there been any tsunami awareness and preparedness activities in those community(ies)?  
(please use "other" to list the community(ies) have had tsunami awareness and preparedness) \*

No

Other

10. Has there been any tsunami hazard assessment undertaken in those communities?  
(please use "other" to list the community(ies) have had tsunami hazard assessment) \*

No

Other

# In Country Capacity to Implement TRRP

The following questions relates to the in country capacity to work on the Tsunami Ready Indicators.

## 11. To develop community level tsunami hazard map \*

- Can be easily done through national and/or local resources (mobilize national expertise and funding)
- Can be done through national and/or local resources but need technical expertise support from ITIC and ICG/PTWS
- Need technical expertise and support from ITIC and ICG/PTWS through regional activities (workshops / trainings)
- Need technical expertise and support from ITIC and ICG/PTWS through national activities (workshops / trainings)

## 12. To train the community to collate information on the estimate number of people that live in the tsunami hazard zone \*

- Can be easily done through national and/or local resources (mobilize national expertise and funding)
- Can be done through national and/or local resources but need technical expertise support from ITIC and ICG/PTWS
- Need technical expertise and support from ITIC and ICG/PTWS through regional activities (workshops / trainings)
- Need technical expertise and support from ITIC and ICG/PTWS through national activities (workshops / trainings)

**13. To train the community to collate inventory of available economic, infrastructural, political and social resources to reduce tsunami risk at the community level \***

- Can be easily done through national and/or local resources (mobilize national expertise and funding)
- Can be done through national and/or local resources but need technical expertise support from ITIC and ICG/PTWS
- Need technical expertise and support from ITIC and ICG/PTWS through regional activities (workshops / trainings)
- Need technical expertise and support from ITIC and ICG/PTWS through national activities (workshops / trainings)

**14. To work with the community to develop tsunami evacuation maps, plans and procedures at community level \***

- Can be easily done through national and/or local resources (mobilize national expertise and funding)
- Can be done through national and/or local resources but need technical expertise support from ITIC and ICG/PTWS
- Need technical expertise and support from ITIC and ICG/PTWS through regional activities (workshops / trainings)
- Need technical expertise and support from ITIC and ICG/PTWS through national activities (workshops / trainings)

**15. To work with the community to develop a public display of tsunami information.**

\*

- Can be easily done through national and/or local resources (mobilize national expertise and funding)
- Can be done through national and/or local resources but need technical expertise support from ITIC and ICG/PTWS
- Need technical expertise and support from ITIC and ICG/PTWS through regional activities (workshops / trainings)
- Need technical expertise and support from ITIC and ICG/PTWS through national activities (workshops / trainings)

**16. To work with the community to develop local context outreach and public education materials \***

- Can be easily done through national and/or local resources (mobilize national expertise and funding)
- Can be done through national and/or local resources but need technical expertise support from ITIC and ICG/PTWMS
- Need technical expertise and support from ITIC and ICG/PTWMS through regional activities (workshops / trainings)
- Need technical expertise and support from ITIC and ICG/PTWMS through national activities (workshops / trainings)

**17. To train and build capacity of community to be able to organize and implement outreach and education activity \***

- Can be easily done through national and/or local resources (mobilize national expertise and funding)
- Can be done through national and/or local resources but need technical expertise support from ITIC and ICG/PTWMS
- Need technical expertise and support from ITIC and ICG/PTWMS through regional activities (workshops / trainings)
- Need technical expertise and support from ITIC and ICG/PTWMS through national activities (workshops / trainings)

**18. To train and build capacity of community to be able to organize and conduct tsunami exercise \***

- Can be easily done through national and/or local resources (mobilize national expertise and funding)
- Can be done through national and/or local resources but need technical expertise support from ITIC and ICG/PTWMS
- Need technical expertise and support from ITIC and ICG/PTWMS through regional activities (workshops / trainings)
- Need technical expertise and support from ITIC and ICG/PTWMS through national activities (workshops / trainings)

**19. To work with the community to develop Tsunami Emergency Operation Plan** \*

- Can be easily done through national and/or local resources (mobilize national expertise and funding)
- Can be done through national and/or local resources but need technical expertise support from ITIC and ICG/PTWMS
- Need technical expertise and support from ITIC and ICG/PTWMS through regional activities (workshops / trainings)
- Need technical expertise and support from ITIC and ICG/PTWMS through national activities (workshops / trainings)

**20. To train and build capacity of community to manage 24/7 tsunami emergency response operation** \*

- Can be easily done through national and/or local resources (mobilize national expertise and funding)
- Can be done through national and/or local resources but need technical expertise support from ITIC and ICG/PTWMS
- Need technical expertise and support from ITIC and ICG/PTWMS through regional activities (workshops / trainings)
- Need technical expertise and support from ITIC and ICG/PTWMS through national activities (workshops / trainings)

**21. To work with the community to develop mechanism (means and procedure) to receive 24/7 tsunami warning** \*

- Can be easily done through national and/or local resources (mobilize national expertise and funding)
- Can be done through national and/or local resources but need technical expertise support from ITIC and ICG/PTWMS
- Need technical expertise and support from ITIC and ICG/PTWMS through regional activities (workshops / trainings)
- Need technical expertise and support from ITIC and ICG/PTWMS through national activities (workshops / trainings)

**22. To work with the community to develop mechanism (means and procedure) to disseminate 24/7 tsunami warning to the community \***

- Can be easily done through national and/or local resources (mobilize national expertise and funding)
- Can be done through national and/or local resources but need technical expertise support from ITIC and ICG/PTWMS
- Need technical expertise and support from ITIC and ICG/PTWMS through regional activities (workshops / trainings)
- Need technical expertise and support from ITIC and ICG/PTWMS through national activities (workshops / trainings)

## Other information

23. What are the challenges to implement the TRRP in your country \*

24. Which Institution(s) in your country should be involved in the implementation of TRRP  
(Use coma between the name of the institutions \*)

## No Plan to Implement TRRP in the country

25. Please elaborate the reason for your country for not planning to implement RTTP \*
