Shared Results

OUTCOME 1

IO 1.1. Communities (especially vulnerable groups) plan and implement effective, inclusive, and integrated disaster preparedness and climate change adaptation activities.

- ❑ Increased evacuation centres that are inclusive for aged, gender, persons with disability and diverse SOGIESC and the vulnerable minorities .
- ❑ A greater percentage of hazard prone communities and faiths are better prepared for climate resilient, inclusive disaster preparedness approaches for higher occurring disasters i.e. cyclones, storm surges, floods, tsunamis
- ❑ More integrated approaches for preparedness and adaptation received by communities.

Linking with Tsunami Ready – Community Focus:

- Weave Tsunami Ready with established or soon-to-be-established Community Disaster Management Plans.
- Carry out simulation exercises for multiple hazards including Tsunami Ready drills.
- Community are disaster/tsunami prepared.

Shared Results

OUTCOME 2

IO 1.2. Local civil society actors (NGOs, CBOs, OPDs, churches, informal groups) have improved institutional and technical capacity to fulfil their role in effective disaster preparedness and climate change adaptation.

- ❑ Partners are more inclusive in their planning (budget allocation, position), implementation (awareness, strengthening capacity, targeted activities and recipients) and reporting (disaggregated data, monitoring, identification of vulnerabilities in communities, stories)
- ❑ Capacity strengthening of partners tying into capacity audit and staff accreditation.
- ❑ Collaboration amongst Partners increased through integrated climate resilience and disaster preparedness approaches and engagement with communities, implementing (peer to peer review), cost sharing, research, and networking.
- ❑ AHP's reach to communities extended and strengthened through its Volunteer Network/Program (including DCOSS, Women's groups, and Church Youth).

Linking with Tsunami Ready – NGO capacity strengthening focus:

- Opportunities to work with UNESCO for more training opportunities so that we grow/strengthen the skillset for Disaster/Tsunami Ready practitioners; and
- More Tsunami Ready trainers support Government to reach more communities and have more coverage.

Shared Results

OUTCOME 3

IO 1.3. National and Sub-national governments are supported to lead effective, inclusive and coordinated disaster preparedness, climate change adaptation and response activities.

- Government reach and response (activation) to communities extended and strengthened through the support of Volunteer Network/Program (including DCOSS and Church Youth)
- Awareness and technical capacity of national agencies strengthened through inclusion, WASH, EOC, EC, safe programming (accredited training programs).
- Network/Community of Practice established (Localisation, Sustainability, Shared Learning).

Linking Tsunami Ready- focusing on supporting Government priorities.

Opportunities to support Government address the 12 indicators for Tsunami Ready. We may not be able to contribute to all but at least there are some indicators that AHP partners could cover.
