Reporting Form 2023-2024: Decade Collaborative Centres, Decade Coordinating Offices and Decade Implementing Partners

Introduction and Contact Details

First of all, thank you for contributing to the reporting process and helping us measure progress and improve Ocean Decade! Please consult the **Guidance Note on the Monitoring and Evaluation** for further instructions on the process.

The standard reporting year is from July 1st to June 30th - therefore please report on the period of **July 1st, 2023 to June 30th, 2024**. This is necessary to allow adequate time for collation, analysis and documentation of the results for presentation via statutory reporting to the IOC-UNESCO Governing Bodies and UN Secretary General. We kindly ask you to forecast data for the period between mid-May and end-June for each year as best you can.

Please note that the deadline to submit your results is May 10th, COB. This will allow us enough time to process and analyse the answers to officially report them to the IOC Executive Council and to publish them in the upcoming Annual Report.

Technical Guidance

All M&E Reporting participants were asked to identify an email address for the individual who would ultimately be responsible for filling in the form on behalf of the Decade Collaborative Centre, Decade Coordinating Office and Decade Implementing Partner they represent. Please ensure that you are accessing the form via the link sent directly to this individual's email address.

You can find PDF and Word copies of the reporting forms here: <https://oceanexpert.org/document/30815>

If you need to stop filling out the form, please be aware that SurveyMonkey will only save the answers on pages that have already been filled out completely. For example, if you have already filled out pages 1-3 and are currently working on page 4, the form will only save the first 3 pages. In order for page 4 to also be saved, you need to fill it out completely and click "next". This way, all answers will be saved and you will be able to access them at any other time.

Please note that all character limits include spaces.

Please contact oceandecade@unesco.org if you have any questions during the reporting process.
