by e-mail to [tsu@nmefc.cn](mailto:tsu@nmefc.cn). Prompt responses (preferably by 0700 UTC on 8 May 2024) are highly desirable. The results of this communication test will be processed by SCSTAC.

Please note that the communication test will be postponed in case actual tsunami advisories are issued in the South China Sea region or if a severe event (also non-tsunamigenic one) occurs in or near the Pacific Ocean, which would require the service of the China National Marine Environmental Forecasting Center (NMEFC) operators. In the event, the test will be conducted on 10 May 2024 at 0600 UTC.

Ensuring the operational functionality of all communication methods is critical to the effectiveness of the Pacific Tsunami Warning & Mitigation System (PTWS) in the South China Sea region. We count on your full participation in the test.

With assurances of my highest consideration, I remain,

Yours sincerely,
