

Participant Information for Field Visit on Day 2

Observation Guidance

Observe and discuss proposed evacuation strategy:

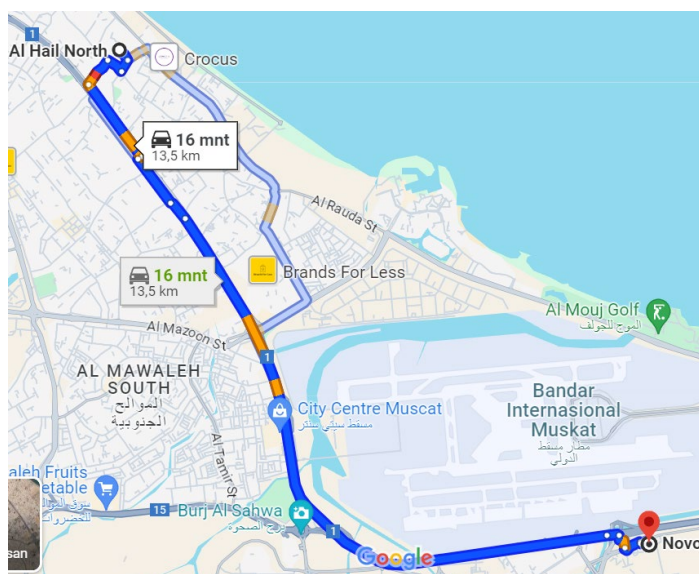

- Locate the **evacuation zone boundary** and discuss whether it is well placed and easy to recognize and remember.
- Observe and identify **critical areas related to the evacuation strategy**, i.e. motorway, narrow streets, bridges in case of horizontal evacuation, options for vertical evacuation, etc. Discuss how to deal with these critical areas.
- Observe and identify **facilities that need special consideration in evacuation planning**, i.e. schools, markets, mosque, clinics, etc. Discuss what would happen to these places in a tsunami incident and what can be done about it.
- Look at the **coastline** that is likely to be hit hardest, **identify the critical points** and discuss how to deal with them.

Logistical Information

- Meeting at **12:45** at Hotel Lobby to departure on time at **13:00**
- Transport by bus (20 minutes ride)
- Visit in 5 groups (8-10 persons / group), accompanied by one DGMet staff and one trainer
- Meeting at assembly point in site area by **16:15** for bus ride back to Hotel
- Please be back in the meeting room at the hotel on time at **17:00** for the last workshop session with TIMM and TEP participants

Logistical Notes

- The weather might be hot and humid. Participants are suggested to bring:
 - Hat and/or Umbrella.
 - Black/shaded Sunglass.
 - Bottled Water (for 2 hours walk).
