INTER-AGENCY INTER-REGIONAL MEETING OF WORKING GROUP ON TSUNAMI READY IMPLEMENTATION 21 August 2024

Tsunami community preparedness, and response;

CLASIFICACION TRIAGE			
NIVEL DE URGENCIA	TIPO DE URGENCIA	COLOR	TIEMPO DE ESPERA
1	RESUCITACION	ROJO	ATENCION EN MINUTOS
2	EMERGENCIA	AMARILLO	45 - 75 MINUTOS
3	URGENCIA	VERDE	2 HORAS
4	URGENCIA MEDICINA	VERDE	2 HORAS
5	SIN URGENCIA	AZUL	4 HORAS

School Safety Program

ICG/IOTWMS Intersessional Meeting of Work
Indian Ocean Tsunami Exercise on Tsunami Ready Implementation, 20XX Aug

Tsunami Ready Implementation

No	IOC/UNESCO Tsunami Ready Indicators	Actions
I.	Assessment (Assess)	
1	Tsunami Hazard zones are mapped and designated.	<ul style="list-style-type: none"> • Scenario-based hazard maps • Make them accessible to the general public
2	The number of people at risk in the tsunami hazard zone is estimated.	<p>These two indicators combined and referred to as “Have a Community Tsunami Risk Reduction Plan” (IOTR, 2018)</p> <p>Estimate and identify</p> <ul style="list-style-type: none"> • The coastal resident population, dynamic crowd • Public institutions, commercial establishments • Community-level resources (Human/ Physical)
	Economic, infrastructural, political, and social resources are identified.	

Tsunami Ready Implementation

No	IOC/UNESCO Tsunami Ready Indicators	Actions
II.	Preparedness (PREP)	
3	Easily understood tsunami evacuation maps are approved.	<ul style="list-style-type: none"> • Develop community evacuation plans • Identify areas for infrastructure development • Provide necessary infrastructure
4	Tsunami information including signage is publicly displayed.	Display : <ul style="list-style-type: none"> • Infographics on Tsunamis (History, Key facts) • Hazard zones • Evacuation signage (Routes, Centres) • Mean Sea Level (MSL)
5	Outreach and public awareness and education resources are available and distributed.	Prepare materials on tsunami-related information and disseminate them to the communities via different media platforms.
6	Outreach or educational activities are held at least three times a year.	Tsunami hazards, evacuation routes, warnings (including natural warnings), safety procedures, and appropriate response actions.
7	A community tsunami exercise is conducted at least every two years.	Conduct a bi-annual tsunami community exercise.

Tsunami Ready Implementation

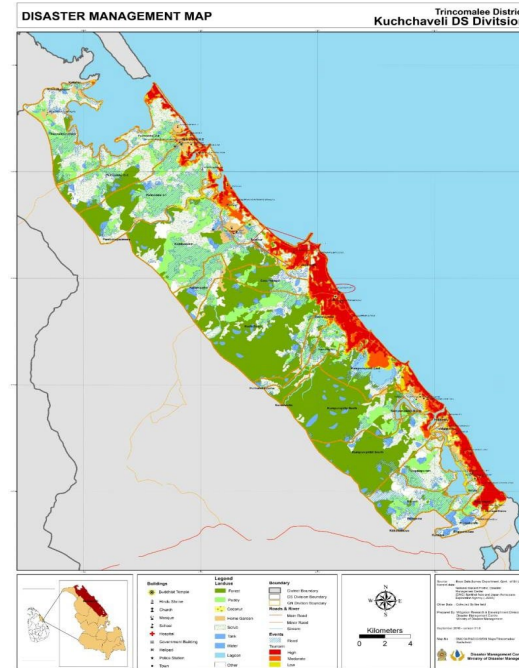

No	IOC/UNESCO Tsunami Ready Indicators	Actions
III.	Response (RESP)	
8	A community tsunami emergency response plan is approved.	SOPs and TOPs for all levels outlining <ul style="list-style-type: none"> • The impact of tsunami hazards on communities • Responsibilities of authorities, including those at the community level.
9	The capacity to manage emergency response operations during a tsunami is in place.	Activate a 24-hour focal point should be in place <ul style="list-style-type: none"> • Supported with necessary resources • Focal point to share real time tsunami threat
10	Redundant and reliable means to timely receive 24-hour official tsunami alerts are in place.	Reliable mechanism to receive Early Warnings and Disseminate them at the community level <ul style="list-style-type: none"> • Should explore alternatives (As currently, the EW tower system is not working) • Develop and strengthen community-level warning mechanisms
	Redundant and reliable means to timely disseminate 24-hour official tsunami alerts to the public are in place.	

Tsunami Ready Implementation

Tsunami Ready Indicator Assessment during IOWave23

IOWave23 as an opportunity to test tsunami-ready indicators:

- 3 villages within two Grama Niladhari Divisions were included for testing indicators

No	IOC/UNESCO Tsunami Ready Indicators	Satisfaction Rating for the Indicator
